---

**Sec. 18-145 – Restrictions**

- (1) Home occupations are permitted as an accessory use in all residential zones and subject to the following restrictions:
- (2) No persons other than members of the family residing on the premises shall be engaged in the home occupation, except up to two employees or independent contractors or remote employees who do not work at the residence.
- (3) The use of the dwelling for a home occupation shall be clearly incidental and subordinate to its residential use, and any external modifications must conform to the residential character and match the architectural aesthetics of the area. Any modifications must be permitted prior to construction.
- (4) The home-based business may not conduct retail transactions at a structure other than the residential dwelling; however, incidental business uses, and activities may be conducted at the residential property.
- (5) There shall be no display of products visible in any manner from the outside of the dwelling.
- (6) No equipment or process shall be used which creates visual or audible electrical interference in any radio or television receiver off the premises or causes fluctuations in line voltage off the premises.
- (7) There shall be no storage of equipment or supplies associated with the home occupation outside the dwelling. However, an individual engaging in a home occupation may park or store vehicles and equipment associated with the home occupation outside of the dwelling if the individual complies with chapter 44 of the Code of Ordinances and the storage of vehicles or equipment would be allowed under the Code of Ordinances if the individual was not engaged in a home occupation under this section.

- (8) No home occupation shall generate traffic on a regular basis greater than that customarily generated by the type of residence involved. Parking related to the business activities of the home-based business must comply with zoning requirements and the need for parking generated by the business may not be greater in volume than would normally be expected at a similar residence where no business is conducted. Vehicles and trailers used in connection with the business must be parked in legal parking spaces that are not located within the right-of-way, on or over a sidewalk, or on any unimproved surfaces at the residence.
- (9) No equipment or process shall be used in a home occupation which creates excessive noise, vibration, glare, fumes, or odor detrimental to the health, safety, morals, comfort, and general welfare of persons, which stands true for any residence within city limits.
- (10) No home occupation shall cause an increase in the use of a public utility (water, garbage collection, etc.) or any facility subject to concurrency so that the combined total use for dwelling and home occupation does not exceed the adopted level of service for residential uses within the city. Any home occupation generating more garbage than typically generated by a residential property must pay the commercial rate for garbage collection.
- (11) There shall be no occupational signs of any type permitted on the residential premises in which the home occupation license has been issued.
- (12) No conditions constituting a violation of the Minneola Code of Ordinances shall be permitted.
